TELEPHONE CALL FROM JNGreeneJR (HOBE SOUND)
TO DEB

DEB reported messages were passed along as per requests of yesterday.

DEB said Gen. Heaton was particularly pleased Sec. had arrived OK.

The Robertson matter should break today or tomorrow. JNG asked if there was any discontinent shown and said not to let it languish.

DEB said Soviets had sent in nasty little note on plane incident. In effect it is a reply to ours although it doesn't specifically refer to ours. Our allies have asked for a day's delay in next flight. We have agreed to 24-hour delay but without assurance that we will discontinue. JNG asked if we filed a flight plan. No comment will probably be made today. Merchant mentioned we don't have British and French. JNG asked when Soviets would publish it. DEB said he had not seen that. A TASS statement described it fairly fully.

JNG is not interested in Linc's daily press briefings but for DEB to keep on eye on him.

DEB reported on the Freedom Foundation matter. JNG said we are making no plans like that until we have a little more time to make such plans. JNG said everyone would have to wait and would understand.

JNG went into the telephone number matter. 2121 is the only number to use. Forget about others. JNG asked that we notify interested parties of change. (Done)
